Projects

As an undergraduate I have being working on a number of projects as follows:

5

Happy Clients

12

Projects

4

Years Spend

EMPLOYEE MANAGEMENT SYSTEM

Used C# and visual studio with the key features of availability of a barcode scanner to scan ID of the employee and mark the attendance.

PROJECT GREEN

Used hardware such as ultra sonic sensors, GPS modules, wi-fi modules and an Arduino board along with firebase as the database holder providing data to the mobile app. The mobile app was created using android studio using java.

LARGE-SCALE HOSPITAL

Used a template created on Html, CSS and servlets. Consisted of a front end as well a back end with dashboards and maps.

LIBRARY MANAGEMENT SYSTEM

Database including triggers, functions, views and procedures. Consisted of an interface, programmed with C#.

SOUTH SEA SIDE HOTEL

Used basics of Html, CSS, JS and PHP and databases. Created using visual studio code and XAMP.

CANTEEN MANAGEMENT SYSTEM

Desktop application managing sales, orders, employee details and supplier details. Used visual studios in creating the software. Database was consisted of diverse tables. Programming language used was java.

KEELS

Used a template of Html, CSS, and JS. Used visual studio, WordPress, XAMP and created a site consisted of a front end as well a back end with dashboards, forms, and maps.

EDU HIVE

Education related app usable in mobile and desktop(windows) made using QT software to help the students use one platform for the purpose of doing past papers and model papers mostly. Consisted with a note pad, calculator and a timer for the use of students

AGRO MASTER

Application acts as an intermediate between the administrators, staff and farmers. App consisted of several dashboards, forms, and maps. Interface was made using visual studio and C# as a programming language.

EDU MASTER

An application consisting of a mobile application(flutter) and a web application (ASP.NET). Designed to let the users conduct educational activities via the application with less app switching

SLBFE

A mobile application(flutter) and website (HTML, CSS, PHP) created for the use of the Sri Lankan bureau of foreign Employment. Uses python and php APIs as backend to upload data into database.

HEALTH TECH

A hybrid system using firebase and contracts deployed blockchain using truffle, ganache and later on test nets. Consists of a mobile application(flutter) and a web application using HTML, CSS, JS, PHP.

Summary

RASHMI VIDUSHANI

Innovative and deadline-driven Software developer working on academic projects for 3+ years designing and developing user-centered applications, Mobile, Web and cross platform application development from initial concept to final, polished deliverable.

- 179/B, Rabutanwaththa, Radawana

- +94 713820425

- rashmividushani2023@gmail.com

Professional Experience

INTERNSHIP- MOBILE APPLICATION DEVELOPMENT

AUGUST 2022 - FEBRUARY 2023

12/5A,Pio mawatha, Kadana

- Participate in designing, developing and testing android applications.

Education

BACHELOR OF SCIENCE SOFTWARE ENGINEERING

September 2019 - July 2022

University of Plymouth, Uk

- Completed the BSc (Hons) Software Engineering affiliated with Plymouth university at NSBM school of computing.

- Achieved a *second class Honours (Upper Division)* with an aggregrate final mark of 66.93 and a GPA of 3.7.

G.C.E ADVANCED LEVELS- COMMERCE STREAM

January 2016 - August 2019

Holy cross college, Gampaha, Sri Lanka

- Accounting studies - C

- Business statistics - C

- Economics - C

G.C.E ORDINARY LEVELS

January 2006 - December 2016

Regent International College, Gampaha, Sri Lanka

- Mathematics - A

- Buddhism - A

- English - A

- Information Technology - A

- History - B

- Sinhala - B

- Business & Accounting - B

- Science - S
